

CCGo Push Notifications & Update Guide

- **iOS – iPhones or iPads:**

» How to allow push notifications on your device:

<p>1. Go to Settings on your iPad or iPhone</p>	
<p>2. Go to Notifications</p>	
<p>3. Scroll down to CCGO</p>	
<p>4. Switch Allow Notifications to be green</p>	

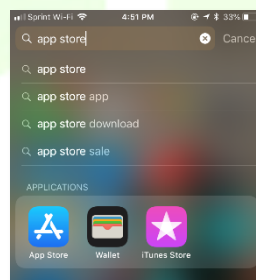

5. You can then adjust **how the notifications show up on your device**, and **turn notification sounds on or off**
****Note:** you have to be logged into your account to be receiving notifications. You don't have to have the app open or running through

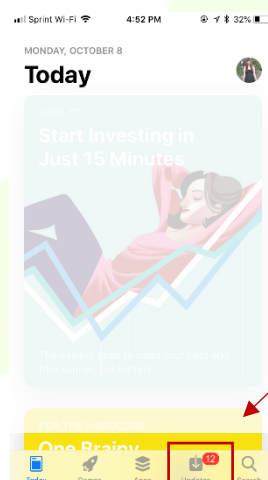

6. You can check the **CCGo User Guide** to further troubleshoot if you don't receive push notifications after turning this on.

» How to update the app:

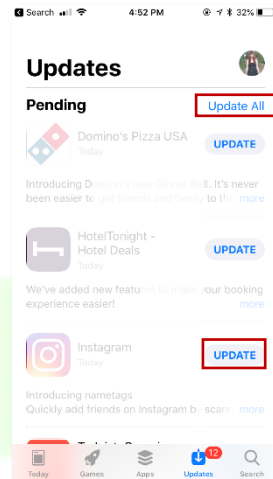

1. Navigate **the App store**

2. Press updates **in the bottom right**

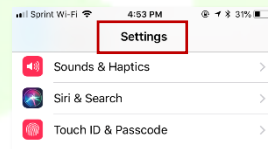

3. **Press** update all or scroll to **CCGo** and press update

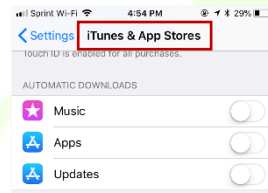

» **How to** turn on automatic updates:

- a. Navigate to **Settings**

- b. Go down to **iTunes & App store**

- c. Turn on the switch for **Updates** and select the any additional **settings** you want

*Note: You should ensure that your version of the app is up to date. This way you won't have any issues or glitches.
